Dear Ms. Fuerst:

Subject: QAPP for Sitewide Well Survey/Sampling

As a result of our discussions at project meetings on March 18 and 23, we have decided to conduct the survey and sampling of wells during April utilizing the Phase I Quality Assurance Project Plan (QAPP). That QAPP and associated Standard Operating Procedures (SOP) were used for the well survey and sampling effort at the Galena subsite during 1985 and 1986. Its use during early spring 1987 will maintain consistency of our sampling protocol.

Sincerely,

Richard Moos
SM, Cherokee County Site
